

# Affordability Now!

House District 3 is home to hardworking people who have built their lives here. But rising costs are making it harder to stay. Young families can't find a home they can afford. Retirees on fixed incomes are stretched thin. Working people are being priced out of the community they love. That's not the Montana way — and it's not acceptable.

I stand for an **HD3** where people can afford to live, work, and age with dignity. Here's my record — and my promise.

1.

**More Affordable Housing.** In the 2025 session, I introduced legislation giving communities like Whitefish new tools to increase affordable housing. I'm continuing to work directly with local leaders to turn that progress into real results.

2.

**Lower Property Taxes.** I helped pass property tax reform that reduced taxes for 80% of full-time Montana homeowners — real relief for real people. It was a meaningful step. I'll keep pushing for more.

3.

**Affordable Medical Care.** I helped secure continued Medicaid coverage for working families and fought to protect Whitefish's local hospital. As insurance costs rise, government's job is to stand with people — not against them.

**Re-Elect DEBO POWERS**, an experienced leader, who will continue to work hard to find solutions to the challenge of affordability. [www.powersforthepeople.us](http://www.powersforthepeople.us)
