## Moving Montana Forward

We live here because we love our Montana way of life—our vast public lands, beautiful scenery, our clean environment. We love our small communities where people know and care about each other and treat each other with respect. We cannot sit by and quietly watch the Montana we love be drastically changed. You deserve to be represented by someone who knows this district, its lands, and its people. **Representative Debo Powers works hard to preserve the Montana we all love.**
